

Are we people of grace?

Song: I got saved! (Selah)

How many are glad that you're saved?

But just why are we saved, how did that come about?

I believe that the love of God was so strong for you and me that it drove Him to make a way for us to be brought back to Him.

God made the decision to do something to remove the damage that sin did and to restore us.

So what is grace?

Grace is God's decision to extend to you and me an invitation to be part of His eternal family.

If not for grace we would all be destined to a Christless eternity in a place the bible calls hell.

Why is this? Because we are all sinners and no one is righteous.

There are a lot of good people that will miss heaven because they trust that they are good people!

Life in the Old Testament was a life without the grace of Jesus!

Then Jesus came and brought grace and truth.

You and I have so much because of grace!

Next week: What does a life filled with God's grace look like?

When you truly realise what God has done for you, His love, grace and forgiveness begin to **transform every area of your life.**
