## How to Turn the Power On!

Good morning church family,

We all know the church is a powerful force in the world today because the Holy Spirit is the power source. But what if the church is just in maintenance mode and not growing or reaching out, what's going on?

Today I will share with you what I think's going on and I will get my message from 1 Corinthians 12 and Romans 12.

Thanks to Francis Chan for his story about the Big Red Tractor.

Special Note: Next week I would like to start our get together with a quick biscuit and a cuppa (Nothing fancy) followed by Communion. Thanks to those who will help to make this happen.

He has risen!

Pastor Tony
