

Thirty Days to Live!

Good morning, everyone! Hope you and your family are doing well!

Today I want to approach a subject that really needs to be talked about and that is what would you do if you were told by your doctor that you only had thirty days to live? Probably not a happy thought! But unless the Lord Jesus returns in our lifetime then we will all face the end of our journey, and my thoughts are we should do that with a perspective informed by our Christian faith. I think you would agree!

So, let's take a look at this challenging subject.

Have a good day!

Pastor Tony
