

Have We Lost Our Focus?

You may wonder what I mean by saying, “Have we lost our focus?” Well, today I will take you through the gospels and look at the people that Jesus touched and healed. Not all, but by far the greater number of people that Jesus healed were people that were in deep trouble and broken. Some because of natural causes and others simply because they had messed up their own lives.

I do believe that our town is full of broken people who are hurting, and they need someone that will focus on them. I think we could be that congregation that will create a space for them and welcome them so that they too can hear the Good News about Jesus and their lives are changed.

Please consider what I say today.

For the Cause of Jesus,

Pastor Tony
